20 UD ONLINE

24 OSER LIFELONG LEARNING INSTITUTE

The University of Delaware’s Division of Professional and Continuing Studies provides educational opportunities for anyone seeking to begin or complete their college career, to enhance their professional skills or to enrich their personal lives. Professional and Continuing Studies also provides customized training and educational services to area businesses, organizations and professional associations.

As the adult and nontraditional learners’ portal to UD, Professional and Continuing Studies impacts more than 15,000 students each year through UD credit courses and degree offerings, professional development courses, certificate programs, specialized conferences, workshops and lifelong learning member cooperatives throughout the state.

Through Professional and Continuing Studies, the University of Delaware extends its vast resources, research, technology and knowledge to you, the community, the region and the world. Professional and Continuing Studies provides:

- Career and academic advisement
- Credit courses and degree completion
- Customized learning and community partnerships
- Lifelong learning opportunities
- Professional development programs and courses
- Online learning opportunities through UD Online

Career and academic advisement

The Professional and Continuing Studies ACCESS Center provides free counseling to anyone interested in career exploration or academic advisement and educational planning. Advisors are available to help you achieve your educational and career goals.

ACCESS Center services and resources include:

• Academic advisement for first time or returning students in choosing a University of Delaware program, including assistance with course selection and registration.
• Career exploration and counseling, including administration of interest inventories and career surveys.
• Unofficial transcript evaluation and curriculum review for prospective transfer students.
• Information and assistance with the University’s admission and readmission processes.
• Information regarding UD resources and student services.
• Information on University policies and procedures.

Explore your options! In-person and phone appointments are available. Contact the ACCESS Center for an appointment.

UD Professional & Continuing Studies ACCESS Center
501 South College Avenue, Newark, DE 19716
Phone: 302-831-8843 or 1-866-820-0238 • Fax: 302-831-2789
access-advise@udel.edu • pcs.udel.edu/access
Office hours: Mon., Tues., Fri. 8:00 a.m.–5:00 p.m.; Wed., Thurs. 8:00 a.m.–8:00 p.m.

Credit courses and degree completion

Whether you are a high school student seeking the challenge of college coursework, an adult student seeking to start or complete a degree, or someone interested in taking individual courses for personal, educational, or professional enrichment, you may take courses at the University of Delaware as a Continuing Education, non-admitted student. You do not have to be officially admitted to the University to get started. As long as you meet the course prerequisites, many University courses are available to Continuing Education students on a space-available basis.

A wide variety of courses are offered in the evening and online. Here’s a small sample:

**Online courses**
- Business Basics for Entrepreneurs (ENTR 150)
- Nutrition Concepts (NTDT 200)
- Health Topics: Managing Work Stress (BHAN 130)
- Diversity and Families (HDFS 202)

**Evening courses**
- Introduction to Theatre and Drama (THEA 104)
- Life Span Development (HDFS 201)
- Race, Image, in Media/Culture (BAMS 305)
- Personal Health Management: An Approach for a Lifetime (BHAN 155)

Fall courses begin August 29, 2017.

Ready to register? Visit pcs.udel.edu/reg/credit.

Over-60 tuition-free programs for matriculated Delaware residents

If you are a Delaware resident age 60 or older, you may pursue a University of Delaware degree without paying tuition. You must apply and be accepted (matriculated) to qualify. Visit pcs.udel.edu/credit/over60.

Need more information? Contact the Professional and Continuing Studies ACCESS Center at access-advise@udel.edu or 302-831-8843.

Customized learning and community partnerships

The University of Delaware provides customized programs designed to help your business or organization achieve its training and employee development goals. Professional coaching, executive education and customized training programs are tailored to your organization’s needs and can be delivered online, on site or on campus.

Customized training

We design, build and deliver customized training and executive education programs that meet the specific needs of your organization. We utilize the advanced expertise and experience of University of Delaware faculty to provide exceptional learning opportunities to your staff.
Comprehensive instructional design and course delivery solutions

Our strong knowledge of instructional design techniques, technology applications, and adult learning styles enables our educators to produce and deliver classroom-based and online programs tailored to your needs.

Professional and executive coaching

We help organizations develop employee strengths, address challenges, improve productivity and increase job satisfaction. We can design new or enhance existing internal coaching programs and develop current and future executives.

Benefits to your organization

Outsourcing your organization’s education program development and delivery tasks to UD enables your employees to focus their efforts on core business tasks that affect your bottom line. Other benefits include:

- Strengthening your workforce through proven leadership programs
- Optimizing work processes with project management and Lean Six Sigma programs
- Improving relationships through diversity, teamwork and communications programs

Lifelong learning opportunities

The University of Delaware hosts Osher Lifelong Learning Institute (OLLI) programs in Dover, Lewes, Ocean View and Wilmington for adults 50 and over to enjoy classes, teach, exchange ideas and travel together. These volunteer-based academic cooperatives offer more than 800 courses each year, with no grades or exams and no educational prerequisites. See page 24 for details.

Professional development programs and courses

Professional and Continuing Studies offers a variety of ways for you to build your credentials and move ahead in your career. Certificate programs, seminars, conferences and short courses provide you with practical knowledge and skills as well as resume-building credentials. Our faculty and adjunct instructors combine strong academic backgrounds with extensive real-world experience.

Programs include:

- **Business/IT**—Data Analytics, Business Process Improvement, HR Certification, ITIL Foundation, Project Management
- **Engineering and Science**—Management Essentials for Engineers and Scientists
- **Healthcare**—Advanced Telehealth Coordinator, Clinical Sleep Health and Education, Clinical Trials Management, Healthcare Risk Management, RN Refresher, Personal Fitness Trainer, Population Health Informatics
- **Law**—Paralegal Certificate
- **Safety**—COSS (Certified Occupational Safety Specialist), COSM (Certificate for Occupational Safety Managers), Safe Supervisor
- **Test Preparation**—ACT, GRE, LSAT, SAT, PMP®, CAPM®, HRCH®/SPHR®

See pages 3–19 for complete program listings.

Online learning opportunities through UD Online

More than 200 University of Delaware credit courses—as well as 20 degree programs, certificate programs or professional development programs—are offered online, with more being developed every year. Ranging from an online Associate in Arts to an online MBA or Master of Science in Cybersecurity, online programs from the University of Delaware are ideal solutions for students and professionals seeking to advance their education while accommodating their busy schedules.

See pages 20–23 for program listings.
Analytics: Optimizing Big Data Certificate

Use data-supported solutions for improving business performance

In today's business world, data is easier than ever to collect and store. But it's the analysis of the volume, velocity and variety of big data that provides managers with knowledge that can be translated into effective decision-making and improved business performance. This certificate program brings together statistics, analysis and both written and oral communication skills through an applied approach, providing participants with the tools to join the rapidly growing data analytics field.

WHO SHOULD PARTICIPATE?
• Business, marketing and operations managers
• Data analysts or professionals in any field who deal with large amounts of data
• Financial industry professionals

SCHEDULE: Thursdays, September 14–December 14, 2017

LOCATION: Arsht Hall, 2700 Pennsylvania Ave., Wilmington, Del.

PRICE: $2,895, course materials included. Discounts and financial assistance options available.

Business Essentials Certificate

Undergraduate credit certificate program focused on business essentials for non-business professionals. See page 20.
New for Fall 2017
COURSE | IN-CLASS

HR Certification Exam Preparation

Ready to demonstrate your commitment to the human resources field by becoming a certified HR professional?

Let UD help you to obtain your PHR® or SPHR® certification and demonstrate your commitment to the HR profession. The class covers all six exam topics presented on the certification exam.

WHY CHOOSE HRCI CERTIFICATION?
According to the Bureau of Labor Statistics, Occupational Outlook Handbook, employment of human resources managers is projected to grow nine percent from 2014 to 2024, faster than the average for all occupations; in 2016, the median pay for Human Resources Managers was $106,910 per year.

- PHR® and SPHR® are accredited and meet the National Commission for Certifying Agencies’ (NCCA) rigorous standards.
- Join a network of nearly 140,000 certified HR professionals worldwide in more than 100 countries and territories.
- Established in 1976, HRCI has over 40 years of credible history and it’s the largest HR certification organization in the world
- HRCI certifications are highly valued in HR and the business community worldwide.

WHO SHOULD PARTICIPATE?
- Human resource generalists
- Human resource assistants
- Human resource coordinators
- Human resource professionals
- Senior human resource professionals

SCHEDULE: Wednesdays, September 27 – December 13, 2017, 6–9:15 pm

LOCATION: 501 South College Avenue, Newark, Del.

PRICE: $1,595

The HR Certification Institute® (HRCI®) does not endorse any particular preparation program or offering. We encourage prospective certification holders to use a variety of resources that reflect their learning styles and needs. Purchasing a certification product is NOT required and HRCI does not guarantee that an individual will pass based on the purchase of a certification preparation product.

aPHR™, PHR®, PHRca®, SPHR®, GPHR®, PHR™ and SPHR™ are all registered trademarks of HR Certification Institute.

New for Fall 2017
CERTIFICATE PROGRAM | IN-CLASS

ITIL Foundation Certificate in IT Service Management

Gain IT service management certification

- Learn best practices in IT service management
- Gain a widely recognized IT certification
- Become familiar with standardized ITIL® terminology and practices

ITIL® (Information Technology Infrastructure Library) is a set of best practices and guidelines for managing, planning and implementing IT services in a business or organization. ITIL methodology helps businesses align their IT services with organizational needs, plan for transitions, develop service strategies and continually improve their services and processes.

ITIL Foundation is the entry-level certification for all other ITIL certifications.

The ITIL® Foundation Certificate in IT Service Management certifies that the candidate has gained knowledge of the ITIL terminology, structure, and basic concepts and has comprehended the core principles of ITIL practices for service management. This 11-week intensive course concludes with in-class administration of the ITIL Foundation Certificate exam (exam cost included with course). Participants who successfully pass the exam will earn the ITIL Foundation Certificate.

WHO SHOULD PARTICIPATE?
- CIOs
- IT directors
- Business analysts
- Change managers

SCHEDULE: Thursdays, September 28 – December 7, 2017, 6–9:15 pm

LOCATION: Arsht Hall, 2700 Pennsylvania Ave., Wilmington, Del.

PRICE: $2,395

This course is offered in partnership with CAI. CAI has been reviewed and accredited as an Authorized Training Organization of ITIL Foundation training by PEOPLECERT. ITIL® is a registered trademark of AXELOS Limited. IT Infrastructure Library® is a registered trademark of AXELOS Limited. The Swirl logo™ is a trademark of AXELOS Limited.

DEGREE | ONLINE

Master of Public Administration

Interdisciplinary graduate degree focused on effective management in government, nonprofit and private sectors. See page 23.

PCS.UDEL.EDU • 302-831-7600 • continuing-ed@udel.edu
“Big data and analytics are the future. In a world with tons of information and data, it’s important to be able to make sense of the data and be able to make decisions with it. Data on its own is useless without analytics behind it.”

“The University of Delaware’s Analytics: Optimizing Big Data Certificate program ended up being more fun, challenging, and inspiring than I ever anticipated, and was designed with just the right amount of technical detail. You didn’t need to be a statistician to understand the material, but I still learned key statistical concepts that are vital to the world of analytics.”

“The program, without a doubt, changed my life and led me to a great career path with a great company.”

“In the job interview for my current role, interviewers asked how my new knowledge could be applicable in their organization’s context, and I was able to give them an honest answer with suggestions. In my new role, I am now working towards making those suggestions a reality.”

Tracy Ganjoin completed the Analytics: Optimizing Big Data Certificate and was recently hired as a new business analyst by W.L. Gore & Associates.
Updated for Fall 2017

CERTIFICATE PROGRAM | IN-CLASS

Project Management Certificate

Practical, use-them-next-day skills to manage any project, large or small
Successful companies and organizations in every sector use project management to achieve breakthrough results. The powerful and versatile tools of project management are transferable to any work environment and can be used to manage any project.

WHO SHOULD PARTICIPATE?
• Newly promoted or aspiring project managers
• Experienced project leaders interested in achieving the next level of management skills
• Project managers seeking an entry into the Project Management Institute’s PMP certification process

SCHEDULE:
This program is offered at three locations:
Newark: Mondays, September–December
Dover: Tuesdays, September–December
Wilmington: Wednesdays, September–December

PRICE: $2,595, textbooks included. Discounts and financial assistance options available.

This certificate is a great starting point for attaining the Project Management Institute’s (PMI)® Project Management Professional (PMP)® designation. This program meets the education requirement for the Project Management Institute (PMI)® credential. The University of Delaware is a Registered Education Provider with the Project Management Institute (PMI)®. The PMI Registered Education Provider logo is a registered mark of the Project Management Institute, Inc.

Education programs

DEGREE | HYBRID-ONLINE

Master of Arts in Economics and Entrepreneurship for Educators

Hybrid/online graduate program preparing educators teaching economic, entrepreneurial and financial literacy. See page 21.

DEGREE | ONLINE

Master of Education in Teacher Leadership

Online graduate degree program focused on equipping teachers to be leaders in the classrooms and in their schools. See page 21.

DEGREE | ONLINE

Master of Education in Exceptional Children and Youth (M.Ed.)

Online graduate degree program preparing teachers to meet the academic, social and behavioral needs of students with exceptional learning needs across all grade levels. See page 21.

DEGREE | ONLINE

Master of Education in Literacy (M.Ed.)

Online graduate degree program preparing teachers for certification and career opportunities as reading or literacy specialists in their schools and districts. See page 21.

M.Ed. in literacy, teacher leadership and special education now available online

Being a successful classroom teacher requires an ever-expanding skill set. In addition to the existing M.Ed. in teacher leadership, teachers can now pursue a master’s degree in literacy or exceptional children and youth (special education).

“There is a growing demand for teachers who can successfully navigate today’s more diverse classrooms,” said Rachel Karchmer-Klein, coordinator of the University of Delaware’s M.Ed. in teacher leadership and literacy programs. “In order for our renowned faculty to reach a wider audience, we decided to expand their reach through online programs in these three highly sought-after subjects.”

By taking classes using this flexible, 100%-online format, students can learn on their own schedule, from the convenience of their home or office.

“Our established M.Ed. in Exceptional Children and Youth is already one of the largest master’s degree programs in the School of Education,” adds UD’s Kristen Ritchey, coordinator of the special education online program. “The new online format allows us to take the best of what we offer on campus and make it accessible to teachers across Delaware and even more broadly.”

Associate Professor William Lewis, who teaches writing courses for both the teacher leadership and literacy programs, has found that UD’s online format keeps students actively engaged.

“Our faculty provide extensive, personalized feedback that is responsive to students’ instructional context, helping them to develop into competent and knowledgeable education professionals and leaders,” said Lewis. “The students form a cohesive cohort, and their enthusiasm for the program builds because of these strong relationships.”

ARTICLE AND PHOTO: ALISON BURRIS
Composite Materials Certificate

Online graduate certificate for engineers wishing to expand their knowledge of composite materials. See page 22.

Master of Engineering: Mechanical (MEM)

Online graduate degree in mechanical engineering with coursework in solid mechanics, fluid mechanics, dynamics and heat transfer. See page 22.

Management Essentials for Engineers and Scientists

For current or prospective technical leaders wishing to improve their business acumen and management effectiveness

This intensive workshop is designed to provide a business and management toolbox for engineers and scientists. Topics include management and leadership, business and finance, project management and product development. The program is structured as a four-day boot camp. The course focuses on case studies and projects relevant to engineers and scientists, with emphasis on practical, immediately applicable skills and techniques.

WHO SHOULD PARTICIPATE?
• Managers of engineers and scientists looking to hone their business and leadership skills
• Engineers and scientists on a career path to develop into technical managers
• Cross-functional team leaders who interface with scientists and engineers

SCHEDULE: October 2017 (Monday–Thursday, 8:30 a.m.–4:30 p.m.)

LOCATION: UD Professional Engineering Outreach Classroom, 111 S. Main St., Newark, Del.

This course can be customized and taught on-site at your location to meet your organization’s management training needs. Contact Donna Molinda, dmolinda@udel.edu.

This program is co-sponsored by the University of Delaware’s College of Engineering and the Division of Professional and Continuing Studies.

Master of Science in Cybersecurity

Online graduate degree combining research and theory with application to address today’s cybersecurity issues. See page 22.

Master of Science in Electrical and Computer Engineering

Online graduate degree aimed at engineers with prior degrees in electrical, computer or mechanical engineering, or in computer science or mathematics. See page 22.

Railroad Engineering Certificate

Online graduate certificate program aimed at engineering professionals wishing to expand their knowledge of railroad engineering for advancement in the railroad industry. See page 22.

Graduate Certificate in Applied Bioinformatics

Online graduate certificate program aimed at working professionals in the life sciences, or in the data and computational sciences, who wish to gain knowledge and practical experience in bioinformatics. See page 22.
Healthcare/health sciences programs

CERTIFICATE PROGRAM | ONLINE

Advanced Telehealth Coordinator Online Certificate
Learn to coordinate telehealth technologies to improve access to healthcare specialties and services
Telehealth initiatives hold exciting potential to address healthcare access issues in Delaware and the region, whether from shortfalls in critical healthcare specialties, or under-served geographic locations. Telehealth also provides innovative ways to meet the demands of an aging population, reduce inappropriate use of emergency departments, prevent hospital readmissions, bring care to the most appropriate setting and more. This 15-week program provides the foundations of telehealth for participants interested in utilizing telehealth for the delivery of healthcare.

WHO SHOULD PARTICIPATE?
Clinicians and administrators from a wide variety of healthcare disciplines within behavioral and medical healthcare, including:
- Physicians, dentists, dental hygienists
- Physician assistants
- Nurse practitioners
- Nurses
- Counselors
- Social workers
- Physical therapists
- Occupational therapists
- Speech therapists

SCHEDULE: September 11–December 18, 2017 (self-paced online course with some scheduled requirements and assignments)
PRICE: $1,495, program materials included. Discounts and financial assistance options available.
4.5 Continuing Education Units
The Medical Society of Delaware designates this live continuing medical education activity for a maximum of 41.25 AMA PRA Category 1 credits.

PCS.UDEL.EDU/TELEHEALTH

COURSE | ONLINE

Essentials of Clinical Sleep Health and Education Online Course
Become a sleep health educator and prepare for the Certificate in Clinical Sleep Health (CCSH) exam
This online course introduces healthcare professionals to the specialty of sleep medicine and the essentials of polysomnography and goals of treatment. Topics include normal and abnormal sleep, sleep disorders and associated comorbid conditions, clinical evaluation of sleep, testing and treatment options, monitoring therapeutic compliance, educating the patient/family/community and developing a sleep program.
The course prepares you for the Board of Registered Polysomnographic Technologists (BRPT) Certificate in Clinical Sleep Health (CCSH) exam. For exam details, including eligibility requirements, visit brpt.org.

WHO SHOULD PARTICIPATE?
This course is primarily intended for healthcare professionals:
- Dentists, physicians
- Nurses, nurse practitioners
- Physician assistants
- Polysomnographic technologists
- Respiratory technicians
- Neurodiagnostic technicians
- Anyone interested in learning more about sleep medicine

SCHEDULE: September 25–November 10, 2017 (self-paced, online course with some scheduled requirements and assignments)
PRICE: $1,150, program materials included. Discounts and financial assistance options available.
1.05 Continuing Education Units
(See next page for more information.)

Offered in partnership with the Academy of Sleep and Wellness, which is the education program of Delaware Sleep Disorders Center.

pcs.udel.edu/clinical-sleep-health/

CERTIFICATE PROGRAM | ONLINE

Clinical Trials Management Online Certificate
Prepare for diverse career opportunities in this dynamic and challenging field

The potential opportunities in the field of clinical trials management range from the principal role of the investigator to the supportive tasks surrounding regulatory compliance, scientific writing, marketing, data management and more. Employment settings include pharmaceutical, biotechnology, medical device companies, contract research, hospitals, educational institutions and independent contractors. This program covers site management, data management, U.S. regulatory and legal implications, safety and auditing, and marketing a product, including core concepts consistent with the Academy of Clinical Research Professionals (ACRP) certification exams, a valuable credentialing opportunity for clinical research professionals. For exam details, including eligibility requirements, visit acrpnet.org.

WHO SHOULD PARTICIPATE?
• Clinicians and other professionals currently involved in the clinical trials process
• Professionals with a strong science or healthcare related background wishing to expand their knowledge in the clinical trials field

SCHEDULE: September 11 –December 11, 2017
(self-paced, online course with some scheduled requirements and assignments)

PRICE: $2,125, program materials included.

Discounts and financial assistance options available.

2.0 Continuing Education Units

pcs.udel.edu/ctm

CONFERENCE

Continuing Dental Education Summer Symposium
Current topics for general dentists, hygienists and dental assistants

The Continuing Dental Education Summer Symposium is for general dentists, dental hygienists or dental assistants seeking continuing dental education and updates in the field. Topics have included restorative dentistry, endodontics, periodontics, pharmacology and risk management.

The program is co-sponsored by Dodd Dental Laboratories and the University of Delaware’s Division of Professional and Continuing Studies.

SCHEDULE: Monday–Friday, July 31 –August 4, 2017, 8 a.m.–noon
LOCATION: Clarion Resort Fontainebleau Hotel, Ocean City, Md.

PRICE: Weekly rate is $750 (dentists) or $375 (dental hygienists or other team members); daily rate is $225 (dentists) or $100 (dental hygienists or other team members). Registration includes program materials, certificates of attendance and continental breakfast. Participants assume responsibility for lodging and all other meals.

CERTIFICATE PROGRAM | ONLINE

Dietetic Internship Certificate Program
An online post-baccalaureate program for graduates of a didactic program in dietetics (DPD) meeting the internship requirement for registered dietitians. See page 22 for description.

DEGREE | ONLINE

Doctor of Nursing Practice
A hybrid online and classroom-based program with post-baccalaureate and post-master’s options. See page 22 for description.

CONFERENCE

Eastern Shore Medical Symposium
Comprehensive coverage of current topics for physicians and other healthcare professionals

The Eastern Shore Medical Symposium combines quality education with a great location, where primary care physicians, family practitioners, advanced practice nurses and other healthcare professionals receive comprehensive updates on relevant medical topics in a relaxed, collegial atmosphere. Topics have included diabetes management, coronary artery disease, atrial fibrillation, women’s health, G.I. update, psychopharmacology, and cancer screening, prevention and care.

The five-day conference is jointly provided by Sidney Kimmel Medical College at Thomas Jefferson University and the University of Delaware with promotional assistance provided by the Medical Society of Delaware. The Sidney Kimmel Medical College at Thomas Jefferson University is accredited by the ACCME to provide continuing medical education for physicians.

SCHEDULE: Summer 2018
See website for details.

udel.edu/esms
Serita Porter
Personal Fitness Trainer Course

“I pursued UD’s Personal Fitness Trainer Course to complement my role as a fitness instructor and a graduate student in Behavioral Health and Nutrition at the University of Delaware.”

“Since becoming a fitness instructor, I’ve received many requests from people who want specialized training on an individual basis, so the personal trainer skill set and the Certified Personal Trainer (CPT) designation through the American College of Sports Medicine (ACSM) is extremely relevant.”

“The certification is also relevant for my research, which is focused on nutrition-related chronic disease and physical inactivity. I seek to understand health perceptions along with motivators and barriers to health-seeking behavior among African American men. I also want to facilitate physical activity interventions and add to the body of research concerning this population.”

“My enthusiasm for this field really stems from team accountability and seeing people pursue physical fitness and other wellness activities. Coaching them though personal behavior change strategies using realistic goal-setting to improve overall wellbeing is a victory in the game of life!”

Serita Porter teaches both employee and student fitness classes at the University of Delaware, is a full-time student, and works as a health profession advisor in UD’s Center for Health Profession Studies.

Healthcare Risk Management Online Course

Influence change through patient safety

The field of healthcare risk management has grown dramatically over the past few decades, leading health professionals to new and exciting roles and responsibilities. The role has broadened to include utilization review and quality assurance systems, with risk managers who are focused on patient safety as the guiding principle, as well as measurement of quality outcomes. The course addresses:

- An overview of risk management in the healthcare setting
- The role of risk manager
- Standards, laws, regulatory affairs and patient safety
- Enterprise risk management and corporate compliance
- State and federal regulations
- Risk issues in non-healthcare settings; employee/employer risk
- Risk financing, insurance and contracts

This course provides you with some of the tools to prepare for the Certified Professional in Healthcare Risk Management (CPHRM) exam. For details about the exam, including eligibility requirements, visit ashrm.org.

WHO SHOULD PARTICIPATE?

- RNs
- Legal nurses (LNCC)
- Quality/utilization review nurses (CPHQ)
- Safety officers
- Other healthcare professionals

SCHEDULE: August 28–November 4, 2017 (self-paced online course with some scheduled requirements and assignments)

PRICE: $925, optional textbook is additional. Discounts and financial assistance options available.

1.46 Continuing Education Units

pcs.udel.edu/risk-management

Medical Aspects of Sports Seminar

Successful prevention, evaluation and rehabilitation of sports injuries

This one-day sports medicine conference covers topics related to the evaluation and rehabilitation of sports-related injuries to the upper and lower extremities. This program is recommended for physical therapists, team and family physicians, athletic trainers, coaches, fitness club personnel, and students or school personnel involved in physical education, recreation and physical fitness programs.

Presenters include faculty and athletic training experts from the University of Delaware as well as expert practitioners from the region.

Co-sponsored by the University of Delaware Intercollegiate Athletics Program and Department of Kinesiology and Applied Physiology.

SCHEDULE: February 24, 2018, 7 a.m.–4:15 p.m.

LOCATION: John M. Clayton Hall, Newark, Del.

PRICE: $215. Event registration includes all program materials, refreshments and lunch. Student rate and earlybird rate available.

pcs.udel.edu/sports

Molecular Diagnostics Certificate

Hybrid online plus campus-based certificate program designed for medical laboratory scientists working in the clinical laboratory, in addition to the fields of forensics, biotechnology, and pharmaceutics.

See page 23.

Personal Fitness Trainer Course

Join the growing health and fitness field as a personal fitness trainer

The demand for personal training is booming. Boasting a competitive salary and 24% growth in just the last 10 years, aspiring fitness professionals can anticipate opportunity within this growing field. This is a 15-week entry-level program comprised of 90 hours of instruction, including both classroom instruction, hands-on practice and online activities. Class meets two days per week.

This program is aligned with the American College of Sports Medicine (ACSM), and will prepare you to take the nationally recognized ACSM Certified Personal Trainer (CPT) exam.

WHO SHOULD PARTICIPATE?

- Personal fitness trainers
- Athletic trainers
- Physical therapists
- Nurses and other healthcare professionals
- Individuals wishing to learn more about maintaining health and fitness for themselves or members of their family
- Anyone interested in entering the field of personal fitness training

SCHEDULE: Mondays/Wednesdays, August 28–December 13, 2017, 6–9 p.m.

LOCATION: Leisure Fitness, 231 Executive Drive, Newark, Del.

PRICE: $1,895, textbooks included. Discounts and financial assistance options available.

COURSE | ONLINE
RN Refresher Online Course
Update your nursing knowledge and skills, reinstate your license, or earn contact hours for license renewal

Have you been out of active nursing practice? Do you wish to update your nursing knowledge and return to a clinical setting? Do you need to meet a continuing education requirement in order to renew or maintain your nursing license? The University of Delaware’s RN Refresher Online course is designed to help you expand your nursing options.

RN Refresher consists of:
• A didactic component with online course modules, reading assignments, self-quizzing, case studies, asynchronous online discussions and a final exam
• A clinical component with a minimum of 80 hours of preceptored clinical experience in an adult acute care facility
• Latest updates in nursing care and management presented by practitioners in the field
• Learner support available via web, email, phone and fax
• Nursing contact hours that will be awarded for successful completion of the didactic component for nurses holding active licensure

SCHEDULE: 15-week didactic component begins August 30, 2017. Optional clinical component immediately follows and must be completed by February 30, 2018. Course offered again in February and June 2018.

PRICE: $905 course fee (early registration discount offered); $200 clinical administration fee. Textbooks additional. Discounts and financial assistance options available.

SEMINAR
Population Health Informatics for Healthcare Leaders Seminar
Integrating informatics and experience to inform healthcare decisions

Data analytics is frequently described as a “new” methodology, but most healthcare professionals have been analyzing data their entire careers. The big difference today is the volume of data available to inform healthcare business decisions. New electronic health records are becoming treasure troves of information that will enable your organization to improve patient care, manage population health and reduce operating costs.

This two-day seminar will arm you with the tools and strategies to determine what data is useful, ask the right questions of analysts who support you, interpret results to make good business decisions and effectively communicate your conclusions to varied audiences.

Topics include:
• Healthcare informatics
• Using data to make informed population health decisions
• Techniques for using analytical tools
• How to report and communicate results
• Using informatics to improve care coordination

WHO SHOULD PARTICIPATE?
• Healthcare professionals who need to understand the interrelationships between health informatics, data analytics and MACRA (Medicare Access and CHIP Reauthorization Act)

SCHEDULE: October 17–18, 2017, 8 a.m.—5 p.m.

LOCATION: 501 South College Avenue, Newark, Del.

PRICE: $1,195, registration includes all program materials and refreshments. Discounts available.

PCS.UDEL.EDU/HEALTH-INFORMATICS
Sandra Kece
Paralegal Certificate

“For me, a highlight of UD’s Paralegal Certificate program was the diversity of legal areas covered, such as torts, civil rights, criminal law and research. For someone new to the legal field, being exposed to a range of legal specialties helped me to determine which legal fields interested me the most. Also, I made several friends during the program, one in particular who helped facilitate my first law firm employment.”

“Initially working with criminal defense attorneys at my law firm, I began transcribing police interrogations, witness statements and 911 calls, which I found fascinating. As more attorneys learned of my transcription services, I’ve since started my own legal transcription business, and now employ other transcriptionists.”

“In addition to running my legal transcription business, I am able to dedicate one day a week to pro-bono work with the American Civil Liberties Union (ACLU) Wilmington. This work is enhancing my knowledge of civil rights law and gives me great satisfaction being involved with such a wonderful group of attorneys in a very demanding and noble practice area.”

“The legal field for me is extremely fascinating from a psychological and philosophical point of view. Every case is very different and the work is rarely boring. There are always verdicts that renew my faith that justice does prevail, and underscore the importance of the services that defense attorneys provide.”

Sandra Kece completed the University of Delaware’s Paralegal Certificate in 2003.
COURSE

LSAT Test Preparation

Intensive in-class or online test preparation and review tools to help you perform at your peak on the Law School Admission Test (LSAT). See page 19 for more information.

CERTIFICATE PROGRAM | IN-CLASS

Paralegal Certificate

Create a new career path or advance in your current position as a paralegal or legal assistant

Paralegals fill a vital role in the legal community, and for more than 30 years, the University of Delaware's Paralegal Certificate program has been preparing legal assistants and paralegals in the region. Taught by a faculty of experienced attorneys, the program covers the American system of law, court systems and procedures, and legal research and writing, and introduces the major branches of law.

Professional opportunities are many and varied:

- Private law firms will continue to be the largest employers of paralegals.
- Jobs are expected to grow in corporate legal departments, insurance companies, real estate and title insurance firms, and banks.
- Opportunities are projected to expand in the public sector, including community legal service programs, federal, state, and local government agencies; consumer organizations; and the courts.

Students benefit from Delaware Paralegal Association membership

The University of Delaware’s Division of Professional and Continuing Studies is a sponsor of the Delaware Paralegal Association (DPA) and encourages participants in UD’s Paralegal Certificate program to join DPA at the student membership level.

DPA is a comprehensive resource to paralegals in Delaware and is committed to promoting and maintaining high standards within the legal community of the first state. DPA provides a forum for the exchange of information about the profession, enhances the role of paralegals in the legal community and encourages the continuing legal education of paralegals.

Membership in DPA benefits Delaware paralegals and serves as a great resource for those preparing to enter the field. DPA membership provides:

- Continuing legal education opportunities, including lecture luncheons
- Access to a job bank with regional employment opportunities
- Access to the DPA newsletter
- Inclusion in special projects, networking events and philanthropic activities
- Mentoring and networking with other paralegals
- Pro bono opportunities in the courts and the community

Graduates of UD’s Paralegal Certificate program who are also DPA members will benefit from networking with other paralegals in their class as well as other Delaware paralegals and the larger legal community.

For more information about the Delaware Paralegal Association, including membership details, visit www.deparalegals.org.

WHO SHOULD PARTICIPATE?

- Anyone wishing to change careers
- Anyone wishing to enter the field of law and legal services
- Anyone with legal experience wishing to earn a valuable credential

SCHEDULE: Monday–Wednesday,
September 11, 2017–July 25, 2018, 6–9 p.m.

LOCATION: Arsht Hall, 2700 Pennsylvania Ave.,
Wilmington, Del.

PRICE: $3,525, textbooks additional. Discounts and financial assistance options available.

COURSE | IN-CLASS
Certified Occupational Safety Specialist (COSS)
Become a trained safety practitioner

The Certified Occupational Safety Specialist (COSS) designation is recognized nationwide for its rigorous standards and outstanding curriculum—developed by expert safety practitioners focused on the core competencies of occupational safety and health. COSS graduates will be able to teach their employees and colleagues how to work safely and eliminate the risk of fatalities and near misses—and avoid safety violations and OSHA citations.

The University of Delaware has partnered with the Delaware Valley Safety Council to offer this intensive one-week training program taught by an Authorized OSHA Outreach Trainer.

Earn the nationally recognized COSS designation—Participants who successfully complete the program earn the nationally-recognized Certified Occupational Safety Specialist (COSS) designation, which is endorsed by the American Association of Safety Councils and the American Council for Construction Education.

WHO SHOULD PARTICIPATE?
This course is designed for entry-level safety professionals, as well as experienced safety practitioners wishing to stay current in the field. Safety training is applicable to a wide range of industries including construction, manufacturing, transportation, energy and utilities, public safety and security, health care, food, government and human resources.

Prerequisite: high school diploma or equivalent.

SCHEDULE: Monday–Friday, August 21–25 or October 23–27, 2017, 8 a.m.–5 p.m.
LOCATION: Newark, Del.
PRICE: $2,399, course materials included.
pcs.udel.edu/coss

COURSE | IN-CLASS
Certificate for Occupational Safety Managers (COSM)
Advanced safety training for occupational safety professionals

Safety professionals and managers who have seen the difference training can make firsthand through participation in the Certified Occupational Safety Specialist® (COSS) program can take the next professional step in their careers with the COSM designation. COSM is an advanced, executive-level safety program consisting of 40 hours of specialized training.

After completing 40 hours of training and turning in all assignments, participants will receive the COSM credential.

WHO SHOULD PARTICIPATE?
Organization safety leaders involved in processes and decision making. Prerequisite: minimum two years of safety, health or environmental work experience. Topics covered:

• Essentials of safety management
• Safety competencies and leadership
• Management roles and responsibilities
• Strategic planning and evaluating for safety success
• Managing risk (hazards and analysis), safety finances and workers compensation
• Communicating the safety message
• Presenting to high-level executives
• Injury management, incentives and discipline
• Claims and investigation in post-accident management

This high level safety manager program focuses on safety processes and procedures and building the necessary safety culture to lead your company toward safety excellence.

SCHEDULE: Fall 2017—see website.
LOCATION: 501 South College Avenue, Newark, Del.
PRICE: $2,499, course materials included.
pcs.udel.edu/cosm

COURSE | IN-CLASS
Safe Supervisor Training
Become a safety leader in your workplace

Achieving an injury-free workplace takes more than a catchy phrase or one individual championing the cause. All workers need to be engaged in the safety culture. Safety leaders understand the pivotal role that frontline supervisors play in shaping the safety mindset in the workforce, and often wish that frontline supervisors understood this as well.

Safe Supervisor is a three-day course designed to enhance a supervisor’s understanding of the bigger picture of safety, and his or her role in creating a safer work environment. This course is designed to enhance a supervisor’s understanding of the pivotal role that frontline supervisors play in shaping the safety mindset in the workforce. By learning how to promote safety on a job site, graduates have the knowledge to help lower fatalities, near misses and OSHA citations. Offered in partnership with the Delaware Valley Safety Council.

WHO SHOULD PARTICIPATE?
This course is designed for supervisors who wish to enhance their leadership capability, supervisors who are looking to increase the workforce’s safety engagement, and supervisors who are looking to enhance their understanding of the duties of safety leadership.

SCHEDULE: Tuesday–Thursday, September 12–14, 2017, 8 a.m.–5 p.m.
LOCATION: 501 South College Avenue, Newark, Del.
PRICE: $1,399, course materials included.

Bachelor of Science in Nursing (RN-to-BSN program)

UD’s RN-to-BSN program provides licensed registered nurses the opportunity to complete their professional nursing education. Building on basic nursing knowledge to enhance nursing practice in an increasingly complex society, the curriculum is designed to further develop students’ scholarly writing skills, leadership skills, research knowledge, and use of evidence-based practice to provide a growth experience for the actively practicing registered nurse. Courses are offered in fall, winter, spring and summer semesters providing year-round learning opportunities for degree completion.

Certificate of Business Essentials

Completed as a combination of online and on-campus study, this certificate program is for students and working professionals from non-business fields who would like to earn a business-related certificate to complement their bachelor’s degree. This program is comprised of four targeted courses from UD’s Lerner College of Business and Economics:

- Economic Issues and Policies
- Survey of Accounting
- Introduction to Business
- Fundamentals of Finance

Graduate degrees and certificates

BUSINESS

Master of Business Administration (MBA)

The online MBA program allows participants to engage in experiential learning at its best, maximizing real-world knowledge to equip them with the skills and knowledge needed to excel in today’s competitive global market. Graduates can add a powerful, innovative and AACSB-accredited MBA to their resume in as few as 16 months, with elective options including finance, healthcare and international business concentrations, as well as a healthcare major. Choose from six start dates a year. Scholarships and financial aid may be available.

Online M.S. in International Business

For details, contact Jack Baroudi, baroudi@udel.edu.

EDUCATION

Master of Arts in Economics and Entrepreneurship for Educators (M.A.E.E.E.)

This combined hybrid online plus on-campus master of arts degree focuses on economic, entrepreneurial and financial literacy, and preparing educators for teaching these subjects in elementary and secondary schools. The MAEE equips educators with a solid foundation in economic theory and a set of strategies and methods for teaching economics, entrepreneurship and personal finance, so that they can inspire students to become effective participants in the economy, successful entrepreneurs, responsible consumers and wise investors.

Master of Education in Exceptional Children and Youth (M.Ed.)

With perennial teaching shortages in the field of special education, this program is aimed at developing teachers and education professionals committed to serving children and youth with disabilities. Two concentrations are available, in K-12 Special Education and Autism/Severe Disabilities. This program is appropriate for teachers with a teaching certificate in either general or special education who wish to develop advanced knowledge and skills, as well as other education professionals wishing to pursue an advanced degree in the disability field. Delaware teachers may pursue the M.Ed. or a five-course program that meets requirements for Delaware certification as a Teacher of Exceptional Children Grades K-12 or Teacher of Students with Autism or Severe Intellectual Disabilities.

Master of Education in Literacy (M.Ed.)

This program is designed for K-12 teachers who wish to prepare for certification as reading or literacy specialists. Current teachers and educators will develop the theoretical and evidenced foundations of reading and writing development, learn to plan culturally and linguistically relevant literacy instruction for all students, and support students and teachers in the use of digital literacy tools. Career opportunities include reading and literacy specialist positions in school districts as well as English language arts (ELA) positions in K-12 schools.

Master of Education in Teacher Leadership (M.Ed.)

Today more than ever, the educational landscape is rapidly changing. It requires teachers who are equipped to be leaders in the classroom. It also requires teachers who can foster collaboration within the school and community, as well as understand and implement policies that impact students in K-12 classrooms, private schools, preschools, higher education, and home schooling. This master’s degree in teacher leadership provides teachers with the insights needed to better manage their classrooms, improve student outcomes and take the initiative to lead their peers to do the same. It provides knowledge and skills that are immediately applicable within and outside the classroom to enhance their own professional growth as well as guide their peers toward more effective teaching strategies.

**ENGINEERING**

**Graduate Certificate in Applied Bioinformatics**

Bioinformatics is an emerging field where biological and computational disciplines converge, and the explosion of bioscience data is leading to job opportunities in rapidly growing fields like genomics, pharmaceuticals, healthcare, agriculture and data analytics. This four-course program is aimed at working professionals in the life sciences or data sciences who wish to gain knowledge and practical experience in bioinformatics. Focused on real-world applications, students will learn in an interactive, experiential and multidisciplinary team environment from nationally and internationally renowned researchers and practitioners in the field. No previous programming or database experience is required, but a familiarity with molecular biology concepts is recommended.

www.engr.udel.edu/outreach/short-courses/composites-program

**Graduate Certificate Program in Railroad Engineering**

The railroad industry is growing and hiring qualified individuals into long-term, high-paying careers, and this certificate can help participants become competitive candidates for these positions and for advancement in the field. The Graduate Certificate Program in Railroad Engineering prepares participants to meet railroad industry employers' expectations regarding knowledge of railroad and rail transit. This program is designed for engineering professionals working in the area of railroad engineering or for those desiring to expand their knowledge of railroad engineering and related engineering disciplines, to thereby become viable candidates for advancement in the railroad industry.

**Master of Engineering: Mechanical (MEM)**

The University of Delaware's Master of Engineering: Mechanical (MEM) program provides an advanced engineering degree for those with a baccalaureate degree in mechanical engineering or in a closely allied field of engineering, science or mathematics. The program includes core coursework in engineering mathematics, solid mechanics, dynamics, fluid mechanics, heat transfer and orthopedic biomechanics, with opportunities for concentration depending upon students' interests within mechanical engineering, for a total of 30 credit hours of graduate-level coursework. There is no research or thesis requirement.

**Master of Science in Cybersecurity**

Protect your organization from malware and infiltration with an NSA- and DOD-designated National Center of Academic Excellence in Cyber Defense Education. Learn to design, execute and evaluate secure systems and software. Gain advanced instruction in engineering secure software and systems from a faculty of experts in technology and security. This 10-course graduate program combines research and theory with application to address today's cybersecurity issues and secure your position as an in-demand specialist.

**Master of Science in Electrical and Computer Engineering**

Build your expertise in math, engineering and data science with a program focused on skill building across signal processing, data analytics, communication and cybersecurity to prepare you to lead solution development in data and communications. In addition to the master skill set of electrical and computer engineering, the program strongly focuses on the critical insights you'll need to secure, protect and implement the systems you create. Developed by a faculty with diverse corporate and research backgrounds, this flexible online master's degree in electrical engineering is for those with prior degrees in electrical, computer or mechanical engineering, or computer science or mathematics. The program can be completed in as few as two years.

**NURSING/HEALTHCARE**

**Dietetic Internship**

This post-baccalaureate certificate program provides graduates of a didactic program in dietetics (DPD) with the knowledge and skills necessary to become registered dietitians. The internship develops creative problem-solving skills necessary in the field of dietetics. Upon successful completion of the program, each student will receive a verification of completion certificate and be eligible to take the Registration Examination for Dietitians.

**Doctor of Nursing Practice (DNP)**

The University of Delaware's Doctor of Nursing Practice program prepares graduates to perform at the highest level of advanced nursing practice. The foundation for practice expertise with a population health focus will enable the graduate to plan and lead evidence-based interventions, quality improvement strategies and health policy changes that address patient safety, promote patient-
centered care, and reduce health disparities among diverse groups. Three concentrations are available in a hybrid online and on-campus format: adult-gerontology nurse practitioner, family nurse practitioner, and psychiatric mental health nurse practitioner.

Molecular Diagnostics Certificate

This post-baccalaureate certificate program has a hybrid online plus on-campus format, providing medical laboratory scientists working in forensics, biotechnology or pharmaceuticals with the opportunity to update skills and knowledge to help meet the demands of modern molecular biology theory and application. The program also provides individuals seeking Molecular Biology, American Society for Clinical Pathology (MB-ASCP) certification with a solid preparation for national credentialing examinations. The certificate program is comprised of three courses and includes two 14-week online lectures and one week-long campus-based laboratory practicum.

PUBLIC ADMINISTRATION

Master of Public Administration (MPA)

This program is designed to help public service professionals develop their knowledge of current societal issues and strengthen their administrative acumen using a curriculum based on applied research and contemporary case studies. It is founded on theory, research, and application-based solutions. Taught by an interdisciplinary faculty, this flexible online MPA program will challenge participants using experiential learning methods to apply best practices while mastering the strategies necessary to shape policy and lead effective management in government, nonprofit and private sectors.

Professional development and certificate programs

NURSING/HEALTH CARE

Advanced Telehealth Coordinator

Provides the foundations of telehealth for participants interested in utilizing telehealth for the delivery of healthcare. See page 9.

Clinical Trials Management Certificate Program

Key competencies necessary for successfully understanding and conducting clinical trials and new product development processes in today’s environment. See page 10.

Essentials of Clinical Sleep Health and Education

Online course introducing healthcare professionals to the specialty of sleep medicine. See page 9.

Healthcare Risk Management Online

Online certificate program providing an overview of risk management in the healthcare setting. See page 14.

RN Refresher

Online course for nurses seeking to reinstate their license; optional clinical hours. See page 15.

BUSINESS

Socially Responsible and Sustainable Business—Online Short Courses

This set of four online short courses addresses labor and environmental problems in the global supply chains for the apparel, textile and footwear industries. Over 4,400 supply chain professionals from 39 countries have successfully completed one of UD’s Socially Responsible and Sustainable Business short courses, and 124 companies have used a course to train their employees in industries including apparel, footwear, pharmaceutical, manufacturing, retail, biotech, food processing, jewelry, packaging, telecommunications and electronics. The University of Delaware is the only on-demand online training provider on the topic of human trafficking and compliance. Courses offered include:

• Risks of Human Trafficking and Slavery for Supply Chain Professionals
• Human Rights of Workers in Supply Chains
• Textile and Apparel Product Safety
• Impact of Corporate Purchasing Practices on Workers in Supply Chains

The University of Delaware is proud of its history as one of the earliest and largest lifelong learning programs in the country, hosting Osher Lifelong Learning Institute (OLLI) programs in Dover, Lewes, Ocean View and Wilmington.

Structured as academic cooperatives, OLLI programs are open to adults aged 50+ to take and teach classes together, with course offerings determined by member interest, as well as the passions and expertise of the dedicated volunteer-member-instructors at each program’s location. Five-, 10- and 14-week classes are created by members for members, with no grades, exams or educational prerequisites. Classes include art, history, languages, literature, science and much more.

Register now for fall semester!

DOVER
Classes start September 5.

Attend an open house August 2!

Keep your mind active. No exams or grades. Enjoy learning for fun and enrichment. Make new friends!

What members say...

Dynamic program
“Continuing education, a quest for knowledge and curiosity have always been priorities for me. At my age, I am often asked, ‘Why are you still a student?’ My answer is, ‘Why not?’” (Betty Ipnar, OLLI Dover)

“I have very much enjoyed the classes I have taken at OLLI and look forward to the next semester. Thank you to the many who are responsible for the dynamic and intellectually stimulating programs offered.” (Robert Scott Smith, OLLI Wilmington)

Sharing a love of learning
“The single best thing about OLLI is the instructors. They welcome questions and student discussion, and are open to different points of view. They freely share their life experiences and interests, and share our love of learning. I wish my college experience had been so positive!” (Lissa Scott, OLLI Dover)

I never thought I could love school this much
“Lifelong learning has always been important to me although not necessarily in a formal way. None of my former teachers living or dead would be likely to describe me as a highly motivated student. I am learning now what they tried in vain to teach me then. They should see me now: I never thought I could love school this much.” (Joe Bailey, OLLI Dover)

“Having the opportunity to pursue my passion for lifelong learning through OLLI has been pure joy. My only challenge each semester is trying to schedule all the classes which spark an interest. As I have explained to my friends who are not familiar with OLLI, it’s like having an endless source of ‘mind candy.’” (Sue Claire Harper, OLLI Lewes/Ocean View)

lifelonglearning.udel.edu
Gary Ramage  
UD Osher Lifelong Learning Institute (OLLI) member, Lewes  

“My favorite aspect of our UD lifelong learning program as a course leader is the lively interaction with class members. Our class sessions are discussion-focused, not lectures, and the shared insights range from humorous to poignant. We often laugh heartily together... mighty healthy for our aging minds and bodies.”

“Many of our class attendees are repeaters from previous courses, which fosters comfortable sharing and socializing. While I avoid ‘playing favorites,’ I can’t help particularly enjoying some of our most regular participants, including Amie Sloan, now in her 90s.”

“Over the years, our American Authors courses have been well attended, whether on novelists Steinbeck, Hemingway, Twain and Styron, or playwrights Miller and Wilder. I’ve searched for a term to describe my overall teaching style, and decided what I’m attempting to achieve is ‘edu-tainment’...a fusion of education and entertainment, with class members actively listening and contributing, akin to good audiences in live theatre.”

Gary Ramage is a longtime instructor and member of the OLLI program in Lewes and is pictured here with artist and fellow longtime instructor and member Amie Sloan. Ramage presents the popular American Authors series along with his wife Margo, often drawing on contributors from the University of Delaware’s Resident Ensemble Players (REP) to enrich their courses. The Ramages’ fall course on Gabriel Garcia Marquez will be their 14th OLLI course.
COMING THIS FALL – REGISTER NOW!

Branding You: Defining Your Pathway to Success
A One-day Event Focused on Defining Your Career Path and Building Your Professional Brand

Saturday, September 9, 2017 • 8:30 a.m.–5:30 p.m.
Arsht Hall at the University of Delaware Wilmington Campus • 2700 Pennsylvania Ave, Wilmington, DE 19806

Start on the pathway to success by attending this one-day conference that will empower you with new insights, tools and connections for your journey.

• Attend relevant career- and personal-growth focused sessions
• Network with coaching consultants and representatives from companies that are seeking new talent
• Meet with professional coaches who can help you identify and achieve your goals

Only $99! The first 50 people who register receive a free copy of Nicholas Wyman’s book, Job U: How to Find Wealth and Success by Developing the Skills Companies Actually Need!
